## **Palliser Regional Schools invites you to continue A Community Conversation**

The Board of Trustees of Palliser Regional Schools invites you to an afternoon of conversation about school success, building on the ideas stakeholders from across our division raised at “A Community Conversation” in 2012.

At that unprecedented meeting in May 2012, students, parents, staff and the public shared stories of school success and discussed the factors that contributed to these success stories. Out of the conversation emerged a Top 10 list of factors to ongoing success in Palliser.

The Board invites you to continue the conversation about school success, which factors remain most relevant today and what should be added to our list.

**Let's talk.**
